Trails you want to experience this fall...

Michigan's Dragon at Hardy Dam

Scan for
the latest
trail mp

The Dragon is a world-class mountain biking, hiking and running trail with a 47-mile complete loop around the Hardy Dam Pond. Currently, there are currently 6+ miles open, with continued construction planned thru 2020/2021. The trail provides direct access to pristine forests, parks, campgrounds and an incredible natural landscape.

When the trail network is completed, there will be an ADA accessible trail segment, 13 scenic overlooks, 23 bridges, and all along the shores of the world's third largest earthen dam. Experience the 4,000 acre Hardy Dam Pond, over 2,000 campsites, and countless outdoor recreation opportunities on more than 5,000 acres of land made available for the public by Consumers Energy.

North Country Trail

This beautiful trail is part of the National Parks Trails System and when completed, the 4,600-mile National Scenic Trail will be the longest continuous hiking trail in the United States, traversing through eight states, from Vermont to North Dakota. The trail links scenic, natural, historic, and cultural areas allowing visitors to experience a variety of northern landscapes. White Cloud is located about midpoint on the trail and the restored 100-year-old Birch Grove School House at the corner of Five Mile and Felch roads was the former headquarters for the National Scenic Trail.

The trail links scenic, natural, historic and cultural areas in seven states. This is a great way to get back to nature! For more info on the NCT, visit their website at: www.northcountrytrail.org.
